

## Discontinued and New Product Notice

Date of Issue: Oct 27, 2009

Dear Customers,

This is an announcement from SiMS Corp. for a product we will discontinue of the following:

*Brand: JamMate*

*Product: UFO*

*Product Description: USB Powered Condenser Microphone*

SIMS Corp. has been providing the JamMate UFO products mainly for POD Casting and vocal recording system with state-of-the-art latency driver technology for years. We decided to upgrade its features and specifications that cater to professional users.

The previous UFO has been supplied under the JamMate brand but the newer UFO product will be released under Infrasonic. Infrasonic UFO products are categorized as the following.

Product	Infrasonic UFO
Description	All the features are the same as its predecessor JamMate UFO but feature a thicker metal body to protect electrical noise and better ground shielding. This product now comes in a special metallic finish unlike the previous painted body from JamMate.
MSRP	USD 139.99
Order Code	EAN: 8809201542911    UPC:884007002911

Product	Infrasonic UFO
Description	All the features are the same as the Infrasonic UFO but we've added a low cut filter (at 75Hz) and Pad (0 dB ~ -10 dB) switch on the body surface.
MSRP	USD 159.99
Order Code	EAN: 8809201542812    UPC: 884007002812

Both Infrasonic UFO and UFO# packaging has been changed to a multi-language (English, German, Spanish, Swedish, Russian, Chinese, Japanese and Korean) package and manual.

Although JamMate UFO has been discontinued, the spare part-keep supply and warranty is still valid. Please note that JamMate will no longer supply the UFO model. Only Infrasonic will provide this product from now on. Please place your sales force onto Infrasonic UFO.

We humbly apologize for any inconveniences caused by the discontinuation but we sincerely appreciate your understanding and cooperation on this issue.

If you have further questions about Infrasonic UFO/UFO#, please contact to us.  
Thank you.

Sincerely Yours,

Seung K. Oak
